If you're looking for a team-building experience that's anything but average, look no further than Frank and his handler Danielle. Get ready for a fun-filled adventure that will unleash your inner detective and bring your team closer than ever!

TEAM-BUILDING

Your mission, should you choose to accept it: Learn the ropes of search and rescue with a skilled dog leading the way. It's up to your team to put together a top-notch search plan and execute it to locate a missing person. Are you up for the challenge? Here's what you can expect:

- Get to know Frank and learn about his skills and techniques in mantrailing.
- Each participant will be assigned a role and taught how to perform it effectively within a search and rescue team.
- Each role within the search team will learn to collaborate and communicate in order to complete the operation.
- You'll receive information about the missing person, including recent sightings, maps and a general description. From there, it's up to you to work with your team to develop a search plan.
- One or all participants can learn how to become Frank's handler during the search - it's up to you to decide and incorporate it into your search plan.
- If you have any special requests, let us know and we'll do our best to accommodate you.
